ATL PROGRAM UNDER REVIEW

In an effort to re-direct NARTE's focus to the enhancement of the EMC (Electromagnetic Compatibility) Certification program, and because the full EMC and the EMC ATL certification are being confused in the field, the Accredited EMC Test Laboratory Personnel accreditation project is under review.

As of May 12, 2003, while the program is under review, no new applications will be accepted.

Accredited EMC Test Lab personnel previously awarded certification will remain certified.

As always, contact your Board of Directors to provide feedback on this and any NARTE issues that concern you.

You may contact your Board of Directors via email at narte@narte.org or by providing feedback to our NARTE Headquarters staff at 1-800-89-NARTE (9-5 EDT).
